

Seo Services Spain – SEO Payment Plans

When selecting a plan below, please remember that each plan is dependent on keyword/s difficulty. So after keyword selection, if I feel that your keywords are going to be very difficult to get good placement on Google your plan may need to be Plan C. Alternatively, if the competition for your chosen keywords is not very high, you may only need to have Plan A. The same applies to the monthly SEO plan.

The reason that I have chosen Google and not Yahoo or MSN/Live is due to Google receive around 65% of the internet's search traffic. This is where a vast majority of your customers will come from. This does not mean that your site will not be ranked as high up as possible in all the other major search engines. I will work just as hard to have you ranked well in Yahoo and MSN/Live

Yearly SEO Plan + Keywords

	Yearly Fee	Price Per keyword	Keyword in first
Plan A	€950	€50	1-2 Pages
Plan B	€1250	€75	1-2 Pages
Plan C	€1550	€100	1-2 Pages

Please note that all prices do not include IVA which is charged at 16%. All prices above are quoted in Euro's.

Yearly Fee

The yearly fee as implied is paid once per year.

Price per keyword

This amount is paid per keyword per month if I am successful in placing your website within the first 1-2 pages on Google for your chosen keyword.

So for example, if you have Plan A and have chosen 3 major keywords to target, every month you will have to pay €50 if your site is placed in the top 20(1-2 pages) on Google for your chosen keyword. If all 3 have been placed in the top 2 pages you will have to pay €150. $3 \times 50 = 150$

If your keyword/s have not been placed in the first 2 pages one month you will not pay me a penny.

Keyword in the first

The position of your keyword within Google in order for you to pay me my fee.

Advantages of this plan

The advantages of this plan is that you pay a yearly fee and then only pay when you see results. So logic says, if I am placing your keywords within the first page or two on Google you are going to see a significant rise in visitors to your website meaning more business. So we both win.

Conversley, if you are not in the top 20, you will not need to pay me any money.

Monthly SEO Plan (Max 5 keywords)

	Plan A	Plan B	Plan C
Monthly Fee	€249	€349	€449

All prices above are not inclusive of IVA at 16%

The montly SEO plan is good in that if you are on a limited budget and do not have the money to pay for the yearly plan, you can pay a montly payment, with no extra payments for keyword placement. Please note that there is a limit within these plans as to the amount of keywords I will optimise your site for. With the montly plan it is 5.

Which plan you will require is dependent on the competition for your chosen keywords.

If you need to have your site optimised for more keywords, I can accommodate you but each extra keyword will be chargeable.

Please contact me if you require any further information on my pricing.
